LEARN MORE ABOUT LEI

WHAT IS LEI?

The LEI is a global reference code which uniquely identifies each legal entity that engages in a financial transaction.

WHAT IS THE PURPOSE OF LEI?

The global LEI system (GLEIS) is part of the international response by regulatory authorities (including G20 and the Financial Stability Board) to the global financial crisis. The LEI is designed to enable the identification and linking of parties to financial transactions in order to facilitate the management of counterparty risk.

IRISH STOCK EXCHANGE LEI SERVICE

The Irish Stock Exchange (ISE) is endorsed by the Regulatory Oversight Committee (ROC) and sponsored by the Central Bank of Ireland as a Local Operating Unit (LOU) and as such all LEI codes issued may be used for reporting and other regulatory purposes in the various jurisdictions represented by the ROC.

HOW WILL THE GLOBAL LEI SYSTEM (GLEIS) OPERATE?

Internationally, regulators will oversee adherence to regulatory principles and standards through a Regulatory Oversight Committee (ROC). The Central Bank of Ireland, as the regulatory oversight body in Ireland, is a member of the ROC.

The Global LEI Foundation (GLEIF) has full operational management of the Global LEI System. It will ensure that Local Operating Units (LOUs) adhere to agreed operating principles and standards. The GLEIF is under the supervision of the ROC.

LOUs will use their expertise, infrastructure, knowledge of local corporate structures and business practices to implement the LEI system. The ISE, as a LOU, has a full LEI service offering for relevant entities.
